SUMMARY

Dynamic and detail-oriented Full-stack developer specializing in Python and Django for robust Backend development and Angular for Frontend. Proficient in HTML, CSS, Bootstrap, and JavaScript, with a strong track record of building responsive and user-friendly web applications. Excellent problem-solving skills and a collaborative approach to project delivery.

WORK EXPERIENCE

Python Web Developer Intern, Luminar Technolab - Kochi   **Sep 2023 - Jun 2024**

- Developed and maintained web applications using Python and Django framework.
- Assisted in designing, coding, and testing new features and functionalities.
- Developed RESTful APIs to enable seamless interaction between the client and server.
- Collaborated with senior developers to troubleshoot and debug applications.
- Ensured the security, performance, and scalability of web applications.

Cad Designer, SonaCAD Design - Bengaluru   **Feb 2023 - July 2023**

- Review work orders and procedural manuals to determine critical dimensions of designs.
- Calculate figures to convert design dimensions for subsequent production processes using conversion charts and calculators.

PROJECTS

Used Bikes Selling Web Application   https://github.com/anandhu-13/Bike-Company

- Created a streamlined web application for selling bikes, featuring secure payments, a Python-Django backend, and a responsive HTML/CSS/JavaScript frontend. Prioritized user-friendly design and efficient inventory management

Ecommerce Clothing Store Web Application   https://github.com/anandhu-13/Clothing_Store

- Developed an ecommerce platform for a clothing store, including secure payment integration, scalable backend with Python and Django, responsive frontend design (HTML/CSS/JavaScript), and optimized user experience.
